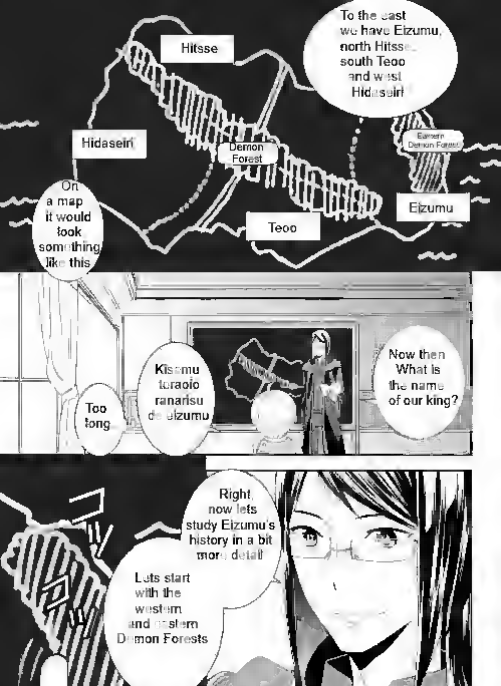
Killing Intent!!!

This land we reside in is called the Lanaa Continent
In the Lanaa Continent there exists four Countries
Well then today it is time for history and geography studies
Ok
Now then what is the name of the country that we live in ?
The Eiznmu Kingdom
Correct



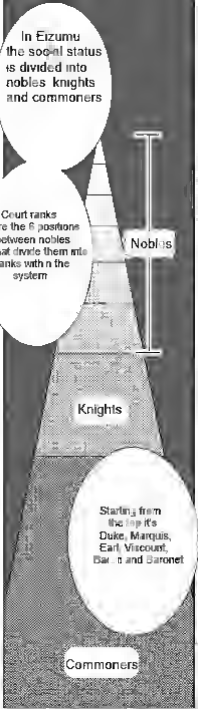
Hitsse
To the east we have Eizumu, north Hitsse, south Teoo and west Hidaseiri
Hidaseiri
Demon Forest
Eastern Demon Forest
Eizumu
Teoo
On a map it would look something like this
Too long
Kisamu tsraoio ranarisu de eizumu
Now then What is the name of our king?
Right, now lets study Eizumu's history in a bit more detail
Lets start with the western and eastern Demon Forests

Will can you explain about the origins of this Kingdom?
um
That person became the first king and the settlement was the beginning of the Eiznmu kingdom
The person who cleared the land between the demon forests s the first king quite strong royalty eh
Right
If im not mistaken then the eastern Demon Forest was originally called Elzumu
Then someone cleared and settled on the land between the east & west Demon Forests

If I was told about the scope of this lesson I would have done better
You studied well
The royal family of this country is closer to the people than in other countries
exactly because of the history of creating this country together
hmm?
Now then Concerning the relationship of Nobles that we talked about last time
Did he forget that he has not taught me about that yet?
That's fine and all but I have still yet to learn about court ranks
yes ?
teacher
He forgot

ah
I still have yet to hear about court ranks
"Ah" ?
as i thought, he did forget!!
Giving me a book or talking for long
And you never say anything about the scraps of the lesson
okay, it's payback time for before

No need for reservations
Go ahead
It's ok Continue
I'm Sorry... I wont say anything anymore...



In Eizumu the social status is divided into nobles knights and commoners
Court ranks are the 6 positions between nobles that divide them into ranks within the system
Nobles
Knights
Starting from the top it's Duke, Marquis, Earl, Viscount, Baron and Baronet
Commoners

Seriously where did the innocent child from back then go
You are the last person who should be saying that

Yes please
Now lets begin explaining about the court ranks

I see so in this world birth determines your status but it's possible to raise in rank with one's achievements
It's possible to raise in rank if one makes a great contribution
Additionally a knight that has achieved enough credits can become a Baronet
So that's how it is The Founder is amazing!
By the way Will's family House Percy is of the highest rank of Dukes
Apparently House Percy's Founder and the first King were friends
But well, because of that it's understandable that they don't lose the rank of Viscount
Additionally House Vesi is one of the older families around as well Although just because a house is old doesn't mean that they will rise in rank.
You have a scary look on your face!!

The current King is exceptionally talented even when compared with previous generations
I would like for that to happen as soon as possible
So scary!! You've been scary for a while now teacher!!
He is currently looking for ways to clean out all the "rotten trash" from the system

How can you disclose something so important so nonchalantly
That was confidential information from the royal court so keep it a secret
Since master is probably going to be involved you better work hard as well
So be sure to study hard!!
That's even more than before no way ugh
Ahh dad's study was filled with documents concerning John's family's dark workings
!!?

ﾀﾀﾀ

really?
this is the place

William Beryl's abduction
The purpose of their infiltration is

Shadow
